Dear Hiring Manager:

I am very enthusiastic for the opportunity to fill in the position as a web designer. As you will see from my resume and in speaking with me in person, my education, upbringing, and professional experience make me an ideal fit for this position. I am currently pursuing my Master of Web and Multimedia Design in Touro College Graduate School of Technology. In my previous web design courses I learned principles started from wireframes, mockups, sitemap to HTML, CSS, JavaScript coding and responsive design.

Further, I've already had the opportunity to make a responsive website for CTI Construction Inc. company located in Flushing, NY. Working with CTI required exceptional attention to detail and concern about the daily update on their jobsites. During AEC, I'd developed and applied my administration skills and problem solving abilities. I am a diligent worker and passionate about my work.

I will be a valuable asset to Google and will use this as an opportunity to grow and further my development and to bring value to your team.

Thank you for taking the time to review my resume. I look forward to speaking with you soon.

Sincerely,
Siyi Gu

Dear Hiring Manager:

I am very enthusiastic for the opportunity to fill in the position as a user experience research intern. As you will see from my resume and in speaking with me in person, my education, upbringing, and professional experience make me an ideal fit for this position. I am currently pursuing my Master of Web and Multimedia Design in Touro College Graduate School of Technology. In my current assignments during the User Experience Interactive Design course I learned principles related to layout, color theory, user testing, intuitive navigation, and responsive design. In addition to a collaborative class project, I developed an independent interactive project which served as a social networking app.

Further, I've already had the opportunity to make a responsive website for CTI Construction Inc. company located in Flushing, NY. Working with CTI required exceptional attention to detail and concern about the daily update on their jobsites. During AEC, I'd developed and applied my administration skills, branding design skills and problem solving abilities. I am a diligent worker and passionate about my work.

I will be a valuable asset to Google and will use this as an opportunity to grow and further my development and to bring value to your team.

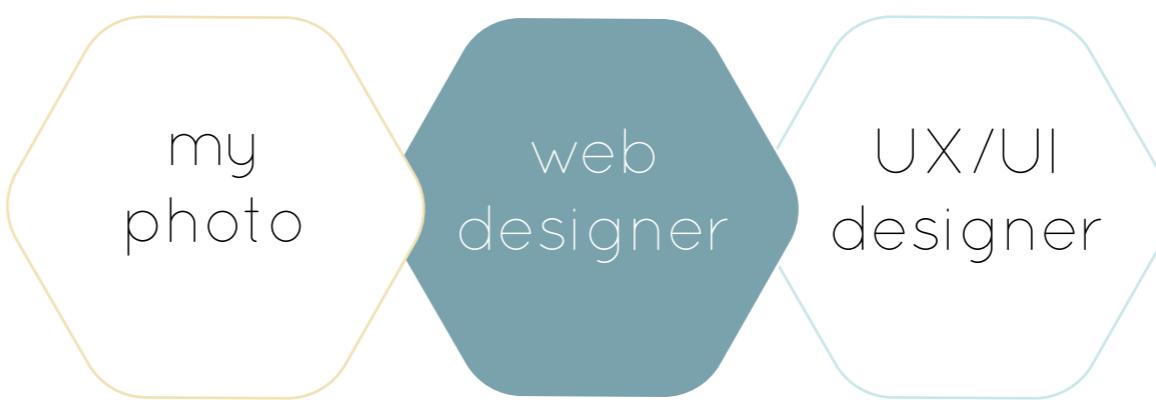

Thank you for taking the time to review my resume. I look forward to speaking with you soon.

Sincerely,

Siyi Gu
